

# NEBESKA ŠETNICA

Usudite se zakoračiti preko ruba!

1228 m ○

## SKYWALKBIOKOVO

Dare to step over the edge!

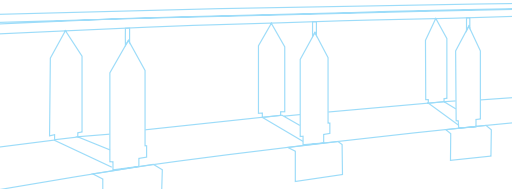

**Skywalk Biokovo** is located at the **Ravna Vlaška area**, at an elevation of **1228 metres**, right next to the info-centar at the 13<sup>th</sup> kilometre of the Biokovo road. At the viewpoint, there is also a geological column providing a 3D overview of the cross-section of the rock that forms Mt. Biokovo, from its formation until today, with a geological time chart and description of the types of rock and their ages.

The viewpoint area is also equipped with parking and restroom facilities.

The Skywalk is reached from the Biokovo road that starts at the entrance into Biokovo Nature Park, about 6 km east of Makarska, and leads to the highest peak, **Sv. Jure (St. George)** at an elevation of **1762 metres**, making it Croatia's highest paved road.

Vidikovac **Nebeska šetnica - Skywalk Biokovo** nalazi se na predjelu **Ravna vlaška**, na visini od **1228 metara** nad morem, na 13. km biokovske ceste i neposredno uz info - centar. U sklopu vidikovca izgrađen je i geološki stup - trodimenzionalan prikaz presjeka stijena koje su formirale područje Biokova od njegovog postanka do danas, s geološkom tablicom vremena i opisom starosti i vrsta stijena. Uz vidikovac se nalazi sanitarni čvor i parkiralište.

Do vidikovca se dolazi biokovskom cestom koja vodi od ulazne recepcije Parka prirode Biokovo, otprilike 6 km istočno od Makarske, do najvišeg biokovskog vrha **Sv. Jure** na nadmorskoj visini od **1762 metra**, što je čini najvišom asfaltiranom cestom u Hrvatskoj.

**Plato vidikovca** je ukupnih tlocrtnih dimenzija **cca 23 x 3 metra**, a s njega se pruža se pogled na more i otoke. Za vjetrovitih sunčanih dana može se vidjeti i **Italija**, a hod po prozirnrom staklu izvan ruba litice omogućuje doživljaj biokovskih stijena iz ptičje perspektive.

S obzirom na nepovoljna geomehantička svojstva tla, blizinu rasjednih pukotina, potresnu zonu i nepovoljan utjecaj vjeta odabrana je prednapeta betonska konstrukcija glavnog nosača na koju se oslanja čelično-staklena konstrukcija, sa podnom plohom koja je u potpunosti izgrađena od stakla.

**The viewpoint plateau is 23 x 3 metres** in size, offering a stunning view over the sea and islands. On sunny, windy days, it is possible to see all the way to **Italy**. A walk along the clear glass skywalk, over the edge of the cliff, provides a bird's eye view of the Mt. Biokovo rocks and cliffs.

Due to the unfavourable geomechanical properties of the soil, the proximity to fault lines and earthquake zones, and the strong winds that blow here, a pre-stressed concrete construction was designed for the main support system, upon which the steel and glass structure sits. The floor of the Skywalk is made entirely of glass.

Uređenje vidikovca Nebeska šetnica – Skywalk Biokovo dio je projekta 'Novi Adrion – Promicanje održivog korištenja prirodne baštine Parka prirode Biokovo', koji se financirao iz sredstava Europskog fonda za regionalni razvoj u okviru Operativnog programa Konkurentnost i kohezija 2014 – 2020.

*Building the Skywalk Biokovo viewpoint was part of the project 'New Adrion – Promoting the sustainable use of the natural heritage of Biokovo Nature Park', financed from the European Regional Development Fund, as part of the Operational programme Competitiveness and Cohesion 2014 – 2020.*

## Vrijeme posjećivanja

Tijekom godine Park prirode Biokovo je službeno otvoren za posjećivanje i razgledavanje prema sljedećem rasporedu:

## Visiting time

*During the year, Biokovo Nature Park is officially open for visiting and sightseeing according to the following schedule:*

DATUM / Date	PARK OTVOREN ZA POSJEĆIVANJE I RAZGLEDAVANJE / Park open for visiting and sightseeing	VIDIKOVAC NEBESKA ŠETNICA - SKYWALK BIOKOVO
01.04. - 30.05.	6:00 - 19:00* (zadnji ulaz je u 18:00 / the last entrance is at 6 p.m.)	7:00 - 19:00
01.06. - 30.09.	6:00 - 20:00* (zadnji ulaz je u 19:00 / the last entrance is at 7 p.m.)	7:00 - 20:00
01.10. - 30.11.	8:00 - 16:00	8:00 - 16:00
01.12. - 01.04.	PARK NIJE SLUŽBENO OTVOREN / Park is officialy not open	

**Od ulazne recepcije do vidikovca ukupno je 13 kilometara i potrebno je oko 30 minuta vožnje. Zbog odvijanja prometa na biokovskoj cesti ulaz u park je moguć za 25 vozila svaki puni sat vremena! Biokovska cesta je uska, brdska asfaltirana dvosmjerna jednostručna cesta kojom se prometuje u posebnom režimu i ima ugibališta oko svakih 300 metara. Biokovskom cestom prometuje se na vlastitu odgovornost! Vidikovac je otvoren svakodnevno u navedenom vremenu, osim u slučaju nepovoljnih vremenskih uvjeta i nepredviđenih okolnosti. Posjet vidikovcu uključen je u cijenu ulaznice u Park prirode Biokovo.**

*The distance from the reception area to the viewpoint is 13 kilometres, and is about a 30-minute drive. To maintain safe traffic on the Biokovo road, only 25 vehicles are permitted into the park every hour, on the hour! The Biokovo road is a narrow, paved mountain road that has only a single lane for two-way traffic, the traffic rules are specific and there are pull outs every 300 metres. Drive the Biokovo road at your own risk! The viewpoint is open every day during open hours, except in cases of poor weather conditions and unpredictable circumstances. Access to the viewpoint is included in the price of the entrance tickets to Biokovo Nature Park.*
